

MI-FORCE
ARMS

ABOUT US

MI-FORCE ARMS, based in Türkiye, specializes in the manufacturing of high-quality shotguns, pistols, rifles, as well as AR and AK platform spare parts and accessories. With a 4,000 m² production facility, we have advanced capabilities in CNC machining, metal processing, and plastic injection molding.

Our in-house mold design and manufacturing expertise provide us with the flexibility to develop new products efficiently and respond rapidly to evolving market demands. By combining modern technology with skilled craftsmanship, we are committed to delivering reliable, durable, and high-performance products to our customers worldwide.

OUR MISSION

To design and manufacture innovative, high-quality firearms and components by utilizing advanced technologies and continuous improvement processes.

We aim to be a trusted and respected manufacturer in the global defense and sporting arms industry.

OUR VISION

To continuously expand our product range in pistols, rifles, shotguns, and firearm components while maintaining the highest standards of quality, performance, and reliability.

Our vision is to become a globally preferred brand known for technological strength, precision engineering, and customer satisfaction.

OUR QUALITY POLICY

To manufacture and deliver products on time, accurately, and in full compliance with national and international standards.

Through strict quality control systems, modern production facilities, and a dedicated team, we ensure consistency, safety, and excellence in every product we produce.

MFX19-PRO

CALIBER :	9x19 mm
FRAME :	Polymer
BARREL LENGTH :	102 mm
Overall Length :	185mm
Weight :	601 Gr Without Mag
Optic Ready :	Yes
Firing System :	Firing Pin Block
Safety System :	Trigger Safety
Grip Size Option:	S / M / L
Mag Capacity :	15 (std) / 17 / 33
